

To Whom it May Concern:

I want to express my opinion about the FCC changing things that are happening in Christian Radio Stations.

My name is Amy Alexander and I am a 21 year old female. I have, like most people, been through a lot of things in my life. My faith in God and the amazing right to freely express my religion has always been important to me but more so as I grow older. I am always continually growing as an individual and in my faith.

Here in Milwaukee Wisconsin we use to have a radio station 105.3FM THE FISH. The Fish was part of our radio for the past 10 years. In the past few months THE FISH is no longer and K-LOVE has taken its' place at the same 105.3FM spot. If it weren't for K-LOVE we would not have an FM Christian Radio station in our city.

I have been astray from my faith at times and in struggle found, especially in the past few months that not only the music on K-LOVE but the ministry as well helps me in ways I cannot even put in to words. It has gotten me through so much and on a daily basis helps me to be a better person and I know it affects thousands of people the same way, not just in my city but all over the country.

Please do not take away or change the way things are. The First Amendment protects the free exercise of religion and I believe if you make the changes that are proposed, you will take away life changing and life saving ministry. Ministry that reaches people of every race, age, gender, rich, poor, republican, democrat and all walks of life. We are one nation under God, and if you cherish the fundamental constitutional rights we have then please listen to me. Everyone has something that is important to them, and when it comes to our rights as Americans no one should be able to take away, alter, tweak or change those rights without everyone wanting the same thing.

I don't have fancy terms to describe what I feel and I am not sure of what could persuade you, but just know that if you change the rules you are going against what we cherish most in this country- to be free. To be free includes the right to exercise religion freely and why shouldn't it? For being free is about the things that make people happy and help people to be citizens that make a difference in their community, and I believe through K-LOVE and other Christian Radio Stations that happens.

I recently saw a movie called Bells of St. Mary's. It stars Bing Crosby and Ingrid Bergman. There is a part in it about the five senses that man is endowed. The following is a quote from the movie. "The six senses, to see, to hear, to taste, to smell, to feel, to be. And the most important is the last. The sixth sense is to be able to enjoy the five senses properly. To be- that's what really matters. It's like a world inside us and it's up to us what we make of it. We see others, we hear others we know others with our five senses but how do we ever know ourselves? Through common sense. Common sense is an internal sense whose function is to differentiate between the various reports of the senses or to reduce these reports to the unity of

a common perception. Two great words- "to be". Other words grow out of them- I am, you are, he is, we are, they are. That sort of takes in everybody."

I believe that quote expresses best how I believe K-LOVE helps people not just day to day but minute to minute. To me K-LOVE and Christian radio has become a blessing. It has taught me how to keep my focus toward one common perception and to appreciate and properly use my five senses. K-LOVE has taught me through its ministry how to go back to my church after being away for many years. K-LOVE has taught me that my relationship with God is just like any other in the sense that I have to work at strengthening the relationship. K-LOVE has taught me to be a better person. K-LOVE has helped me to be a more kind and giving individual. K-LOVE has taught me 'to be'. K-LOVE helps me and my family and friends more than I can say.

Thank you for taking the time to read this and thank you in advance for your gracious consideration.

Sincerely,

Amy Alexander
